Dear Valuable/Potential Customer,

We are pleased to advise you that **CEP SURVEILLANCE LLC** have opened its corporate office in the city of Fort-Lauderdale to attend the area of South West Florida. These are our current services:

- **Surveillance System.** *Home security cameras offer peace of mind by giving you the ultimate control of your safety and security. Our advanced security camera solutions allow you to screen visitors at the door, monitor the baby's room or keep an eye on the kids playing by the pool - without leaving your easy chair.*
- **Computer Service.** *Advanced Diagnostic, Repair & Prevention (diagnostic, cleaning, virus/spy ware removal, os repair, software updates, 2 single title software installs, optimization) All the advantages of Advanced Diagnostic & Repair PLUS installation of security and privacy software to keep your computer protected. Security software included...*
- **Wireless and Wired Internet.** *Configure the network that's right for your lifestyle needs with our versatile offering of networking solutions. On-Q Internet Solutions are designed specifically for residential applications. Secure, high-performance connections made easy through dedicated wall outlets.*
- **Home/Office Automation** (also called **domotics**), *is a field within building automation, specializing in the specific automation requirements of private homes and in the application of automation techniques for the comfort and security of its residents. Although many techniques used in building automation (such as light and climate control, control of doors and window shutters, security and surveillance systems, etc.) are also used in home automation, additional functions in home automation include the control of multi-media home entertainment systems, automatic plant watering and pet feeding, and automatic scenes for dinners and parties. (Powered by Homeseer, Homepro, Z-wave technology).*
- **Home Theater,** *A good sound system is as important as the video display in a home theater setup, if not more so. In many homes, the audio is the more elaborate and costly portion of the system. Setting up the room for realistic audio can be a lot more challenging and time consuming than setting up the video, but the results are worth it.*

- **Multi Zone Sound System,** *Homeowners can listen to music in different rooms at the same time with many audio options such as digital music, CDs, XM Satellite Radio, tuner or stereo, User-friendly keypad volume controls make it simple for anyone to operate. Dedicated source selection allows homeowner to choose the room, then choose the music. Control all the keypads as well as stereo equipment using infrared technology from anywhere in the home with whole house commands. Enhances homeowners' quality of life by adding music to their lifestyle, inside or out.*
- **Intercom Module and Main console.** *(Powered by...) On-Q/Legrand introduces the next generation of intercoms. Based on Cat 5 wiring and offering a modern look that fits in a standard decorator wall plate, On-Q intercoms are an affordable option for every home.*
- **Home Office Solution.** *Whether you are telecommuting a few days a week or running a full-time multi-employee business, On-Q offers the latest in technology and convenience, including sophisticated phone systems and flexible network connectivity.*

We are helping people to change the way of living in their homes through innovative home networking solutions. Experience the convenience and cost saving that come from integrating and managing entertainment, communications, and comfort solutions in your home or office.
